.....
"Positively inspiring." - FOLK ROOTS MAGAZINE

*"Don't miss a chance to see him. You are unlikely to hear anything
or anyone better in the fields that Mann has chosen to master."* - THE TIMES

*"Mann blurs the lines between jazz, blues, classical, and world music creating his
own sound in the process. His wizardry on the fret board is matched by his ability
to convey deep feelings with his songs - creating moods that incite, delight,
or simply soothe. Attempts at categorize his music simply misses the point.
This is brilliant playing that demands to be heard."* - SING OUT! MAGAZINE
